"You have successfully developed three courses in environmental law, land use law, and technology and economic development...You have published two articles, have two manuscripts accepted and one manuscript in review... You are a member of various university committees, responsible for leading the Strategic Planning Initiative of the Department and also representing the department on the College's strategic planning initiative...Overall, as a tenure-track faculty member who has completed your first year in a probationary term, you are making good adjustment to a new environment at ECU."

Dr. Mulatu Wubneh, Chair
Department of Planning
East Carolina University, '04
